

Lesson: 09

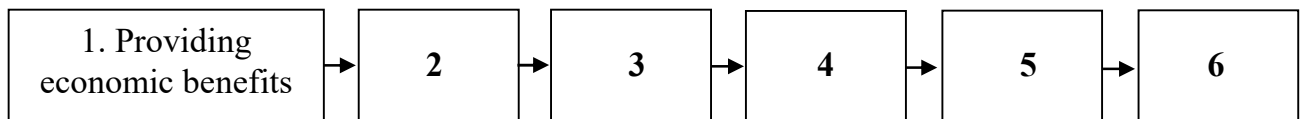

Paper: I

Item: Flow Chart

Question No. 01:

Read the following text and make a flow chart showing the importance of the Hakaluki Haor (One is done for you):

Hakaluki Haor is one of the major wetlands of Bangladesh. The haor system provides a wide range of economic and non-economic benefits to the local people as well as to the people of Bangladesh. These include fish production, rice production, cattle and buffalo rearing, collection of reeds and grasses and collection of aquatic and other plants. The haor system also protects the lower floodplains from flash floods occurring in the months of April-May, maintains the supply of fish in other lower water bodies and provides habitat for migratory and local waterfowls.

Paper: II

Item: Preposition

Question No. 02:

Complete the text with suitable prepositions.

[Respected Guardians, please guide your children so that they follow the lessons properly and practice the exam board questions regularly.]
